Next: Identity Verification 👉

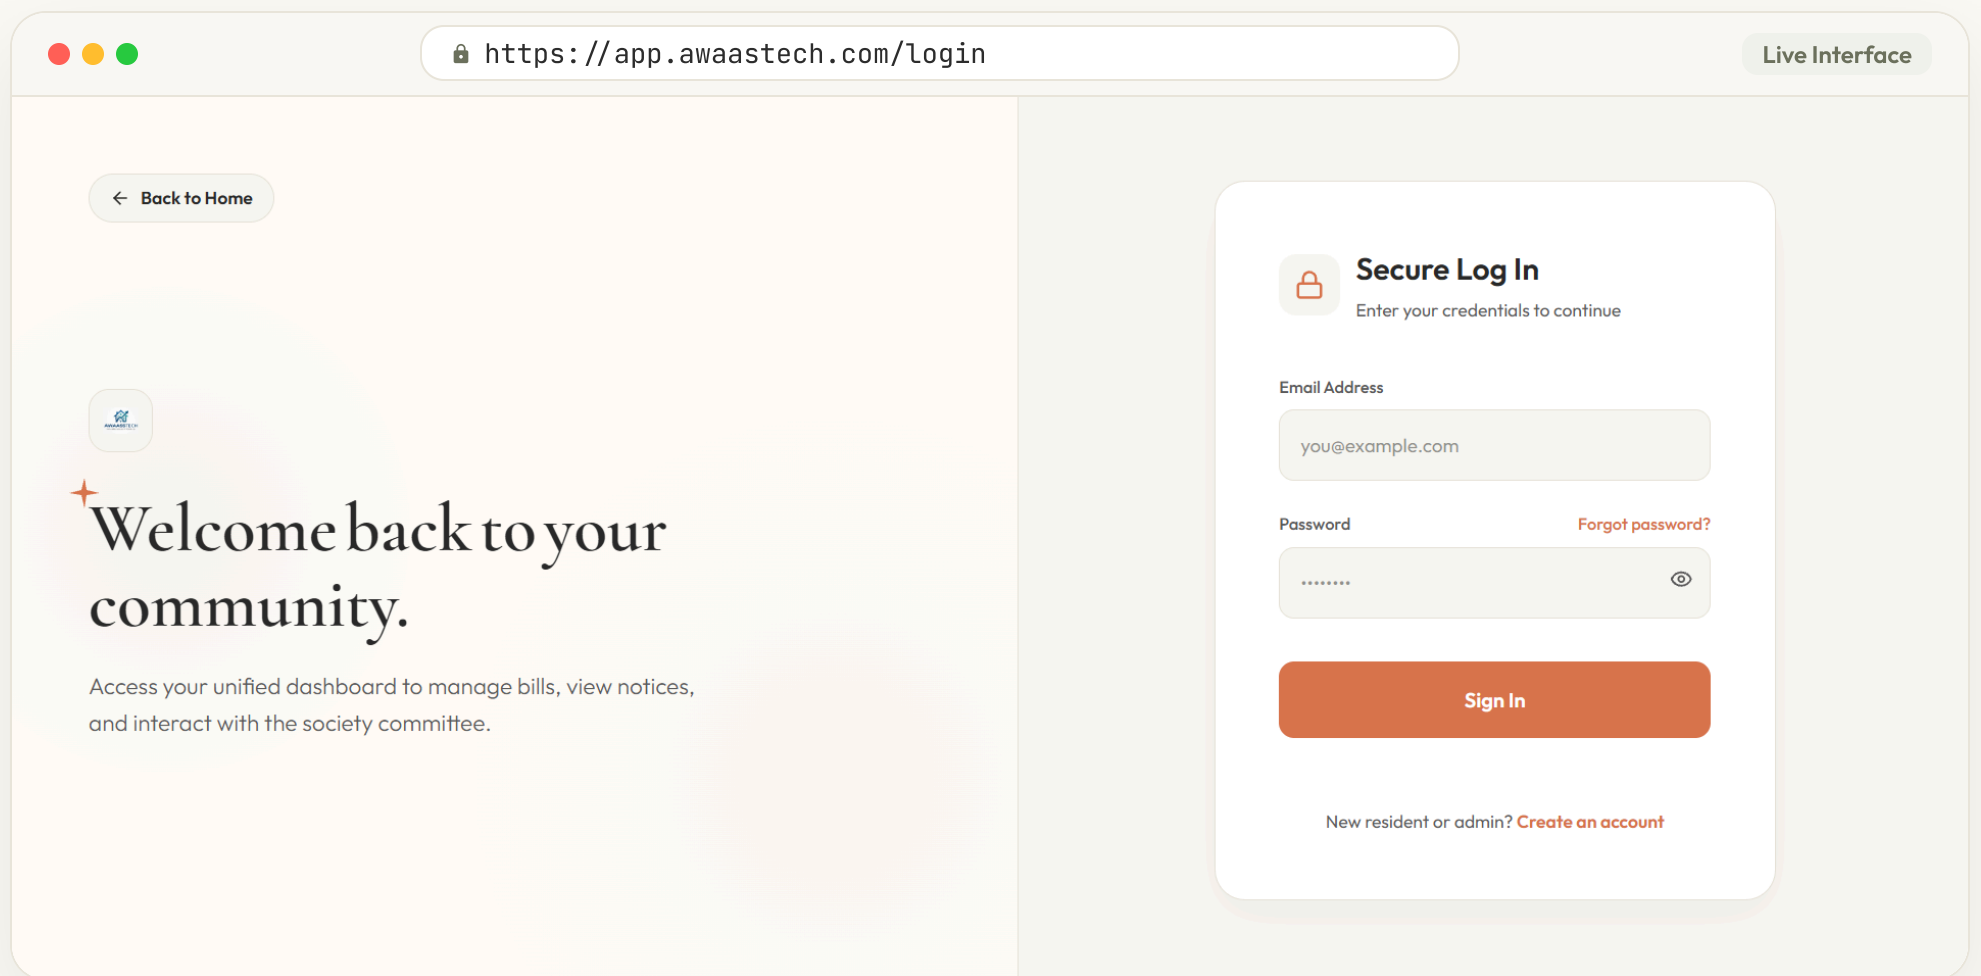

Email OTP Verification: Secure Security Gate

Time-limited cryptographic passcode verification preventing fake accounts, spam societies, and unauthorized access.

Unified Login: Intelligent Role Redirection

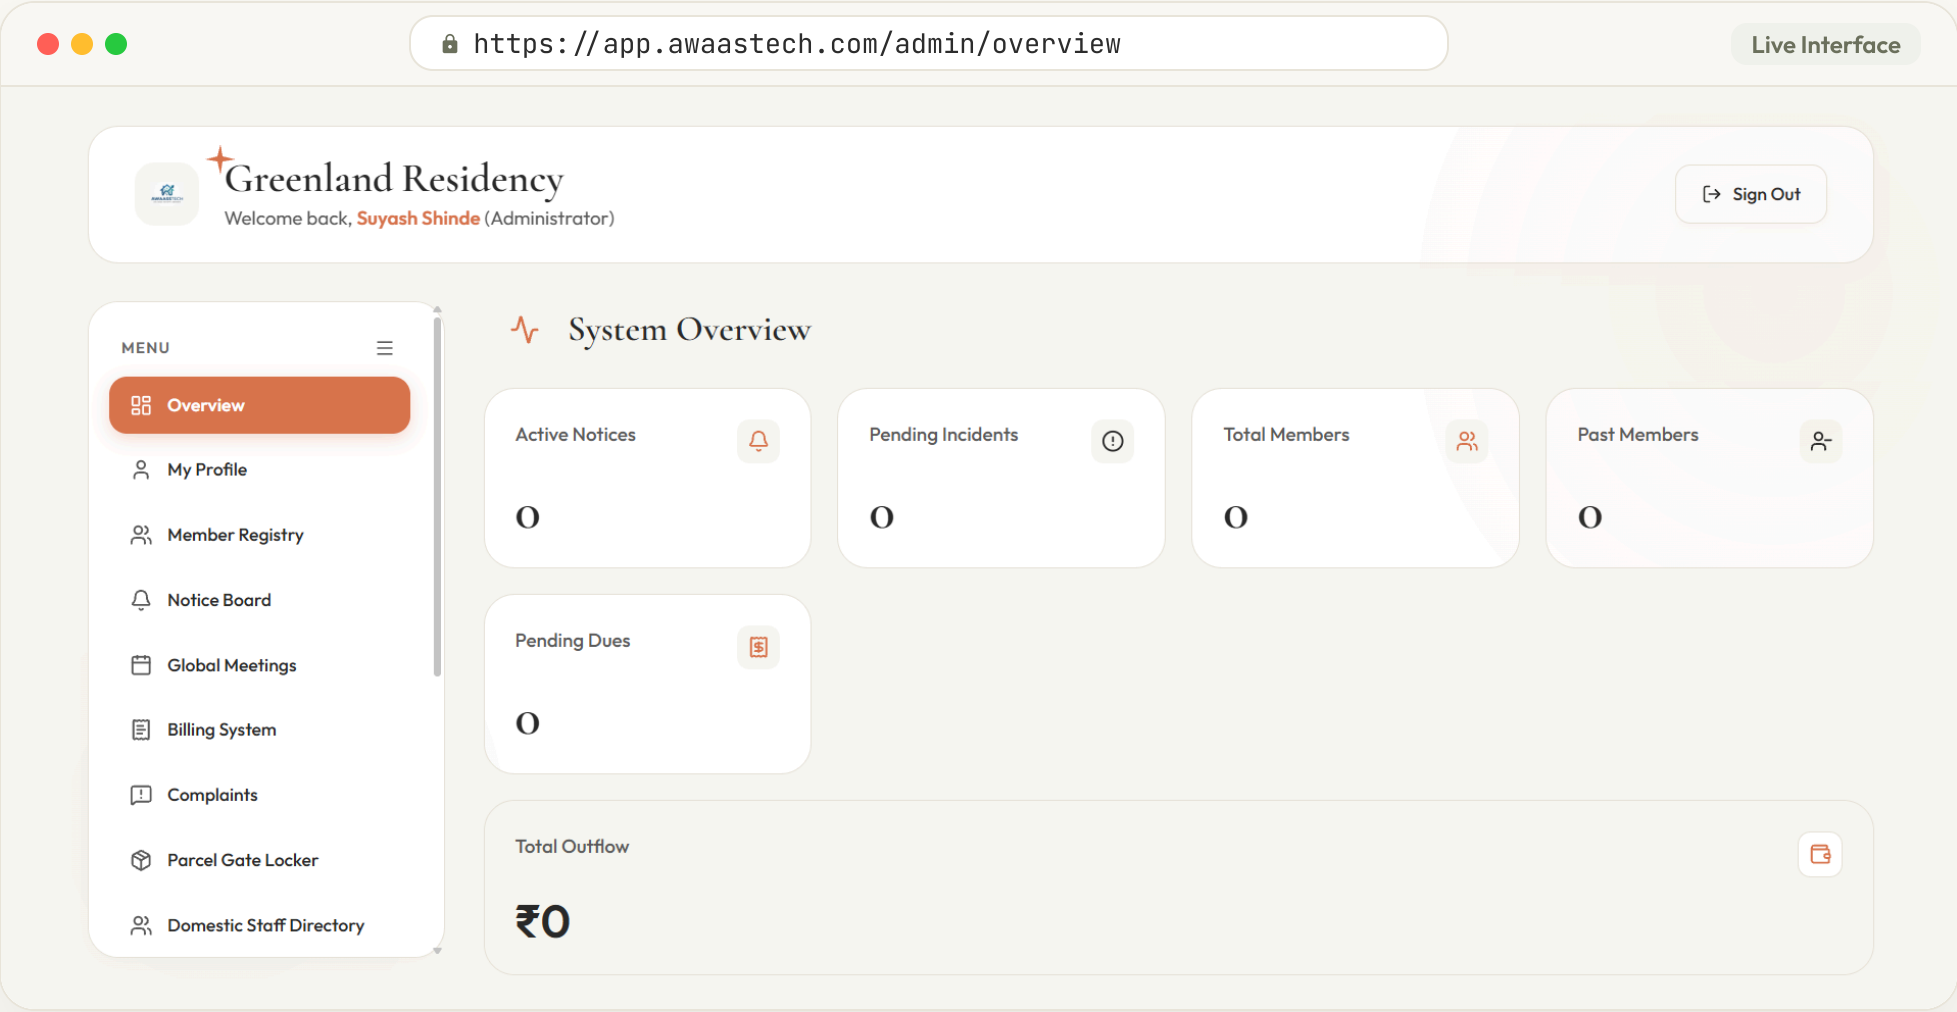

Single sign-in gateway directing Admins, Residents, and Security Personnel with encrypted httpOnly cookie tokens.

Overview: Central Operations Center

Live telemetry showing maintenance collections, pending grievances, broadcast notices, and active staff counts.

My Profile: Account Security & RBAC Settings

Society profile management, bank account settlement details, session controls, and strict permission matrix.

SEARCH MEETINGS...

No Upcoming Meetings

No general body or committee meetings are currently scheduled for your society.

Billing System: Automated Invoicing & Dues

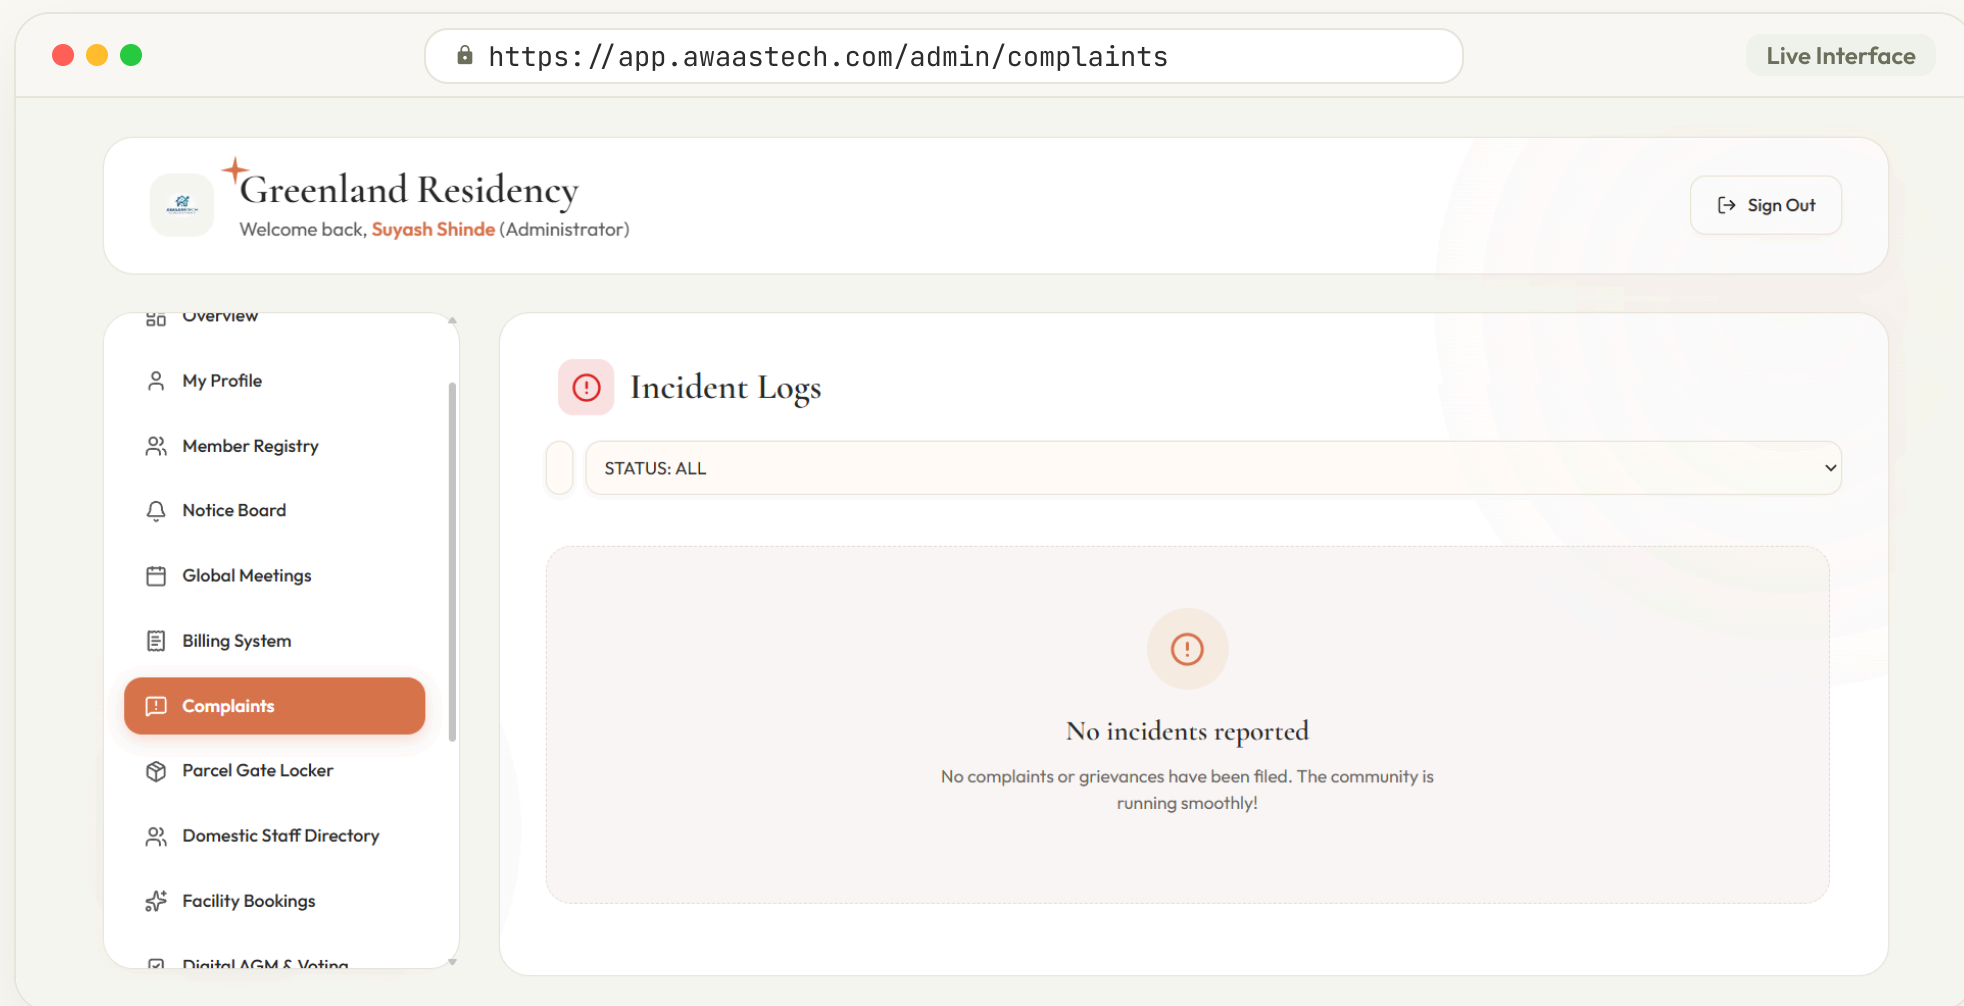

Automated recurring maintenance generation with late penalty calculations and distributed locks to prevent double-charges.

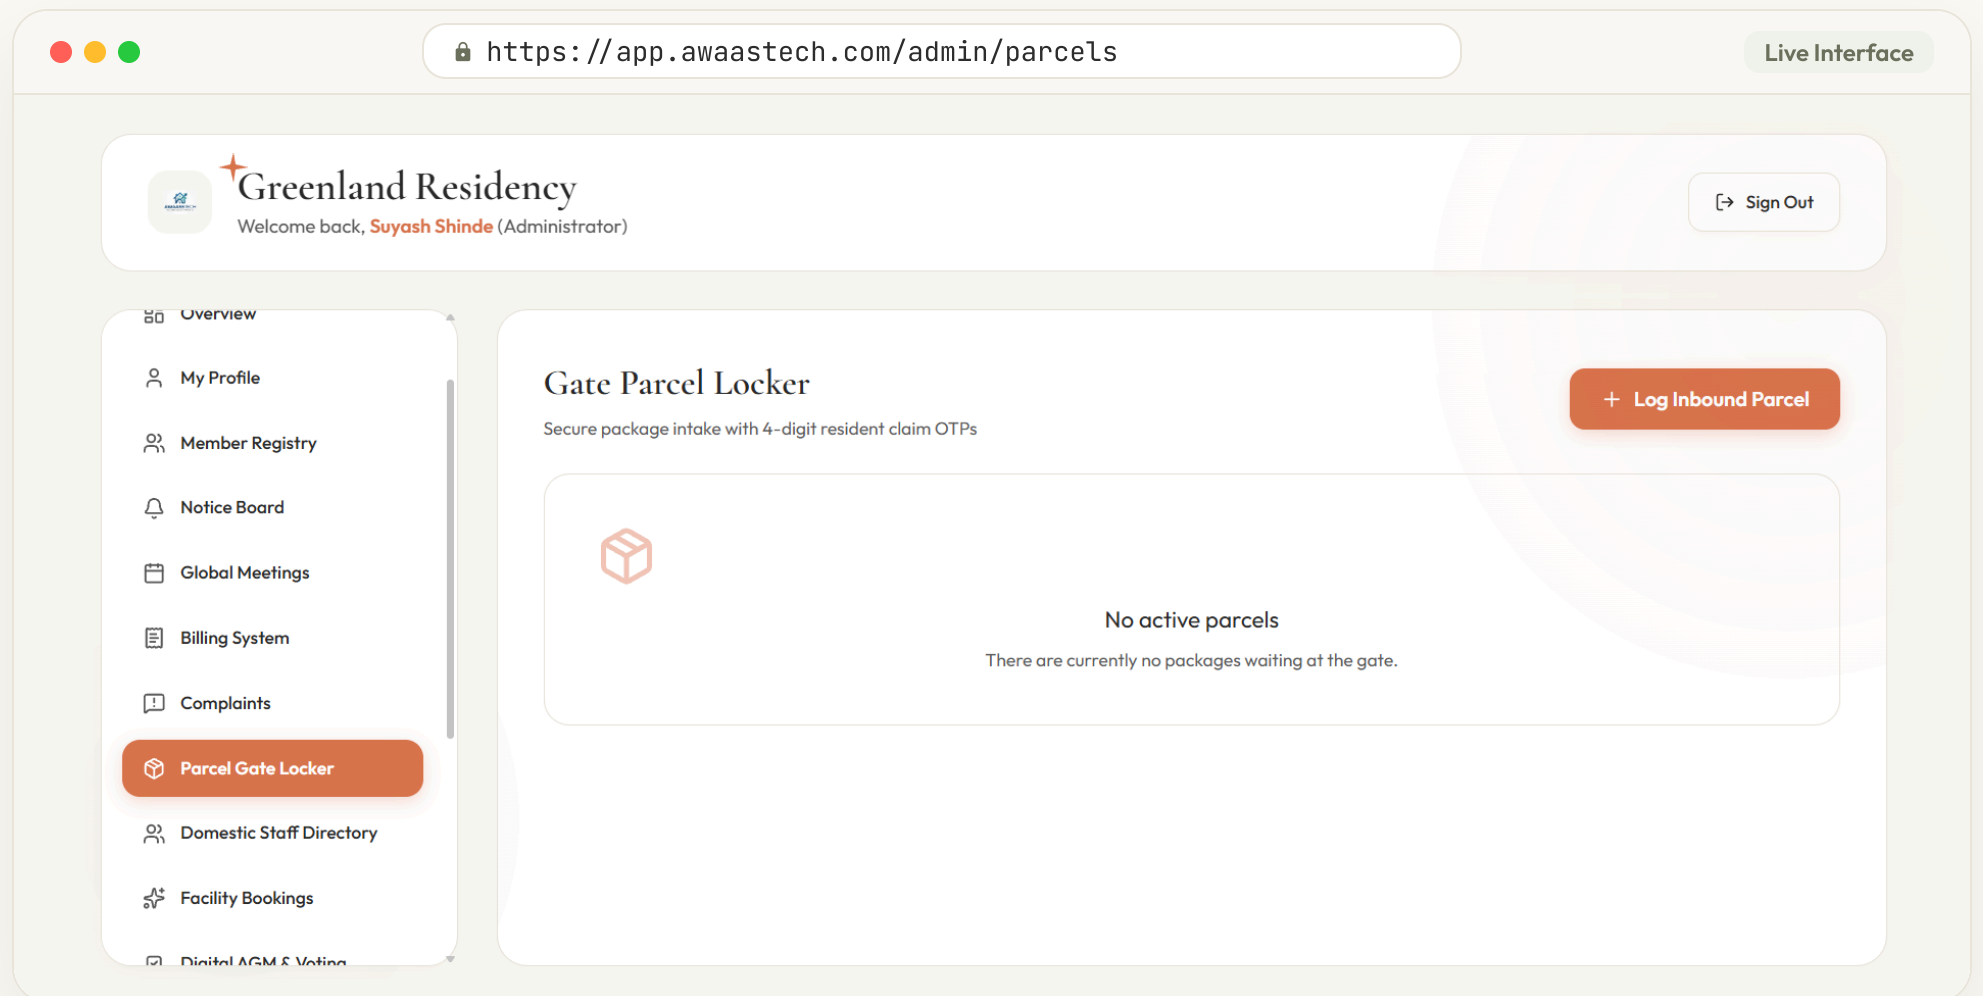

Complaints: Smart AI-Assisted Helpdesk

Automated ticket classification, priority tagging, and transparent SLA tracking for plumbing, electrical, and security issues.

Parcel Gate Locker: 4-Digit Claim PINs

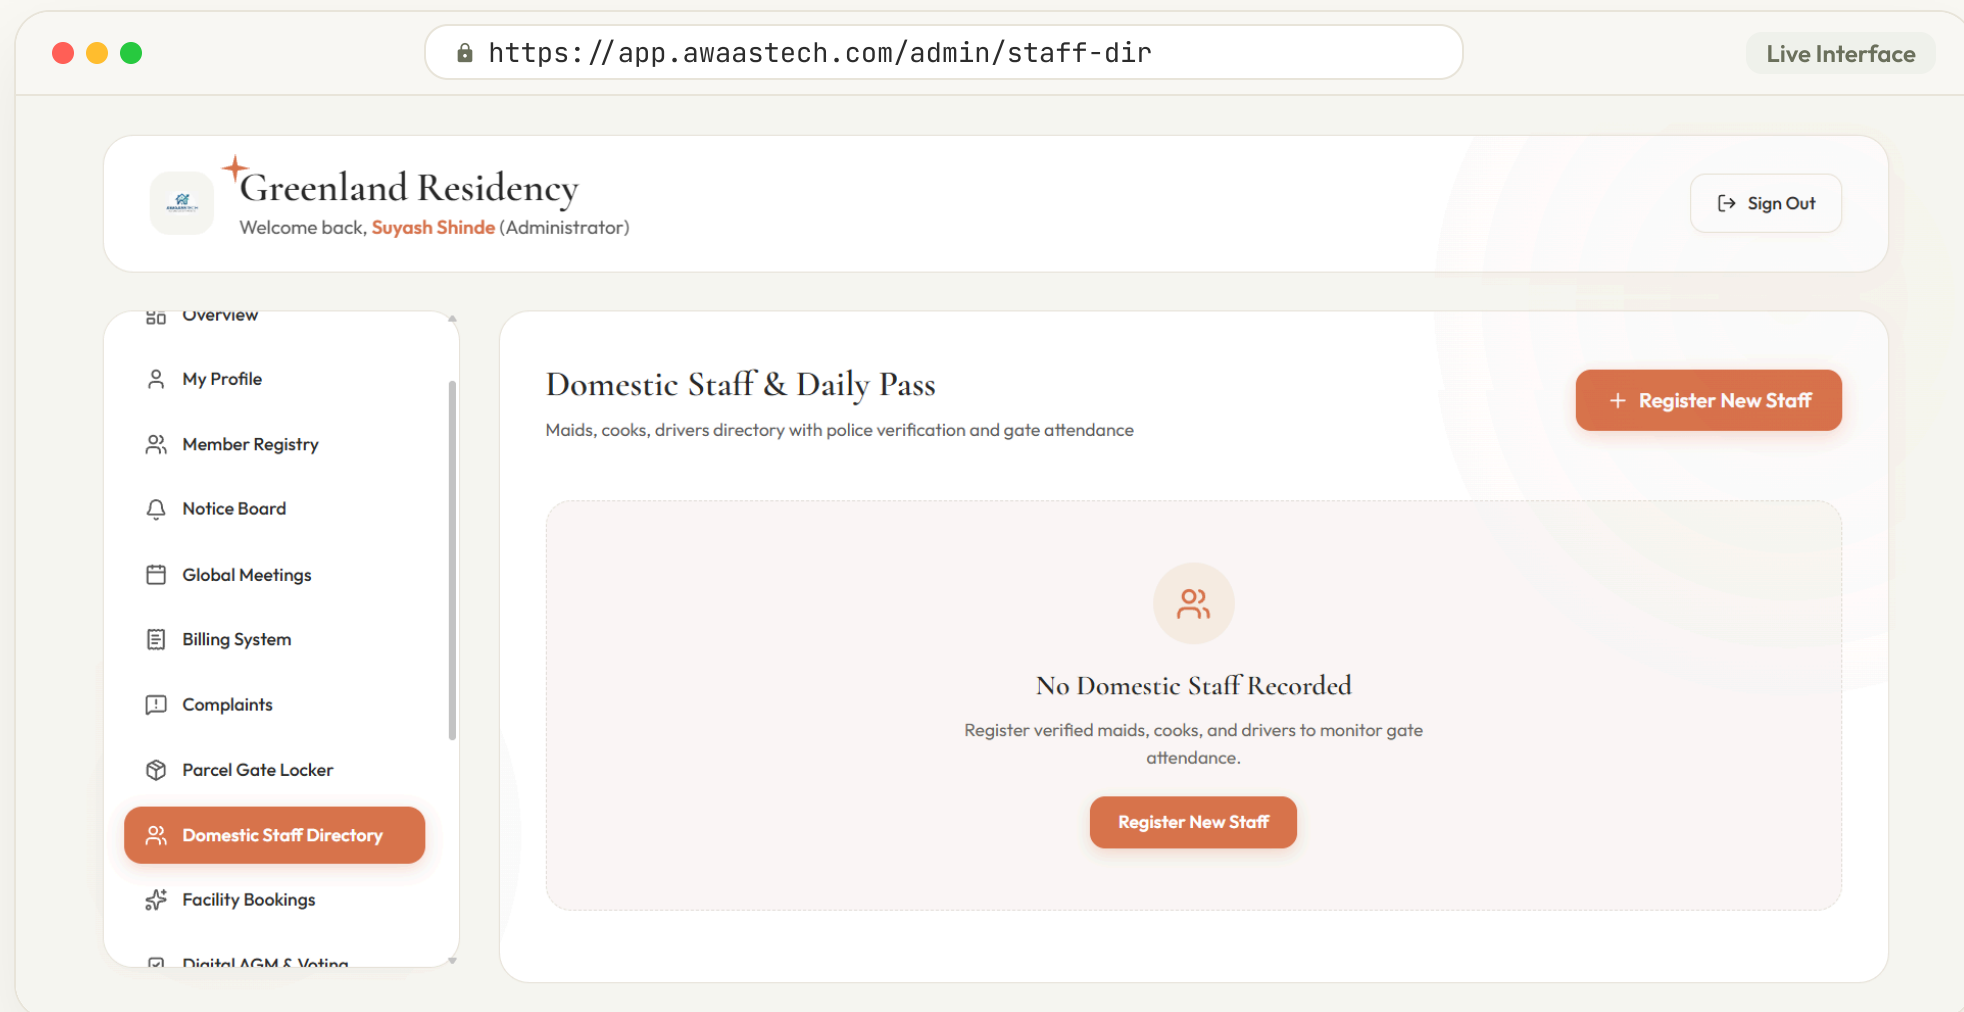

Gatekeepers log packages from Amazon, courier, and food deliveries with secure OTP handoff to eliminate lost deliveries.

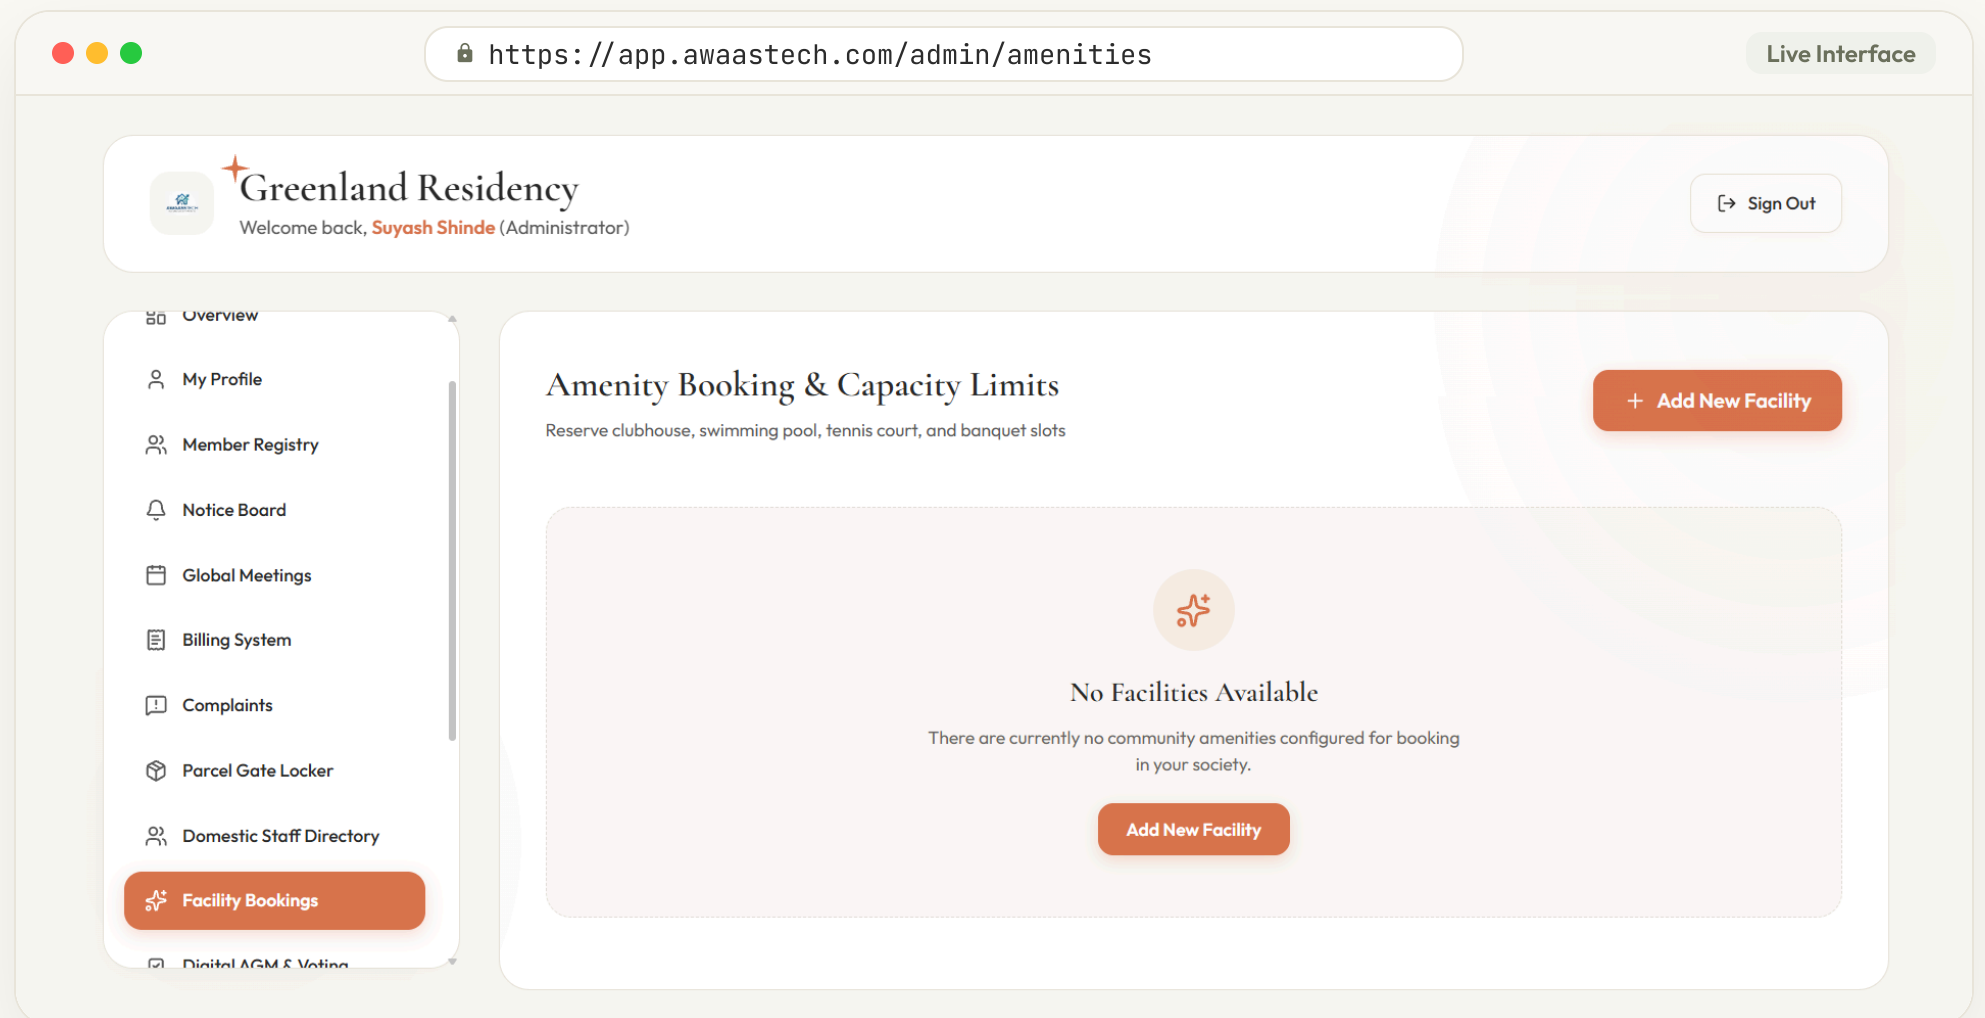

Domestic Staff Directory: Attendance & Passes

Maids, drivers, and maintenance staff registry with secure digital gate passes, entry timestamps, and resident ratings.

Facility Bookings: Conflict-Free Scheduling

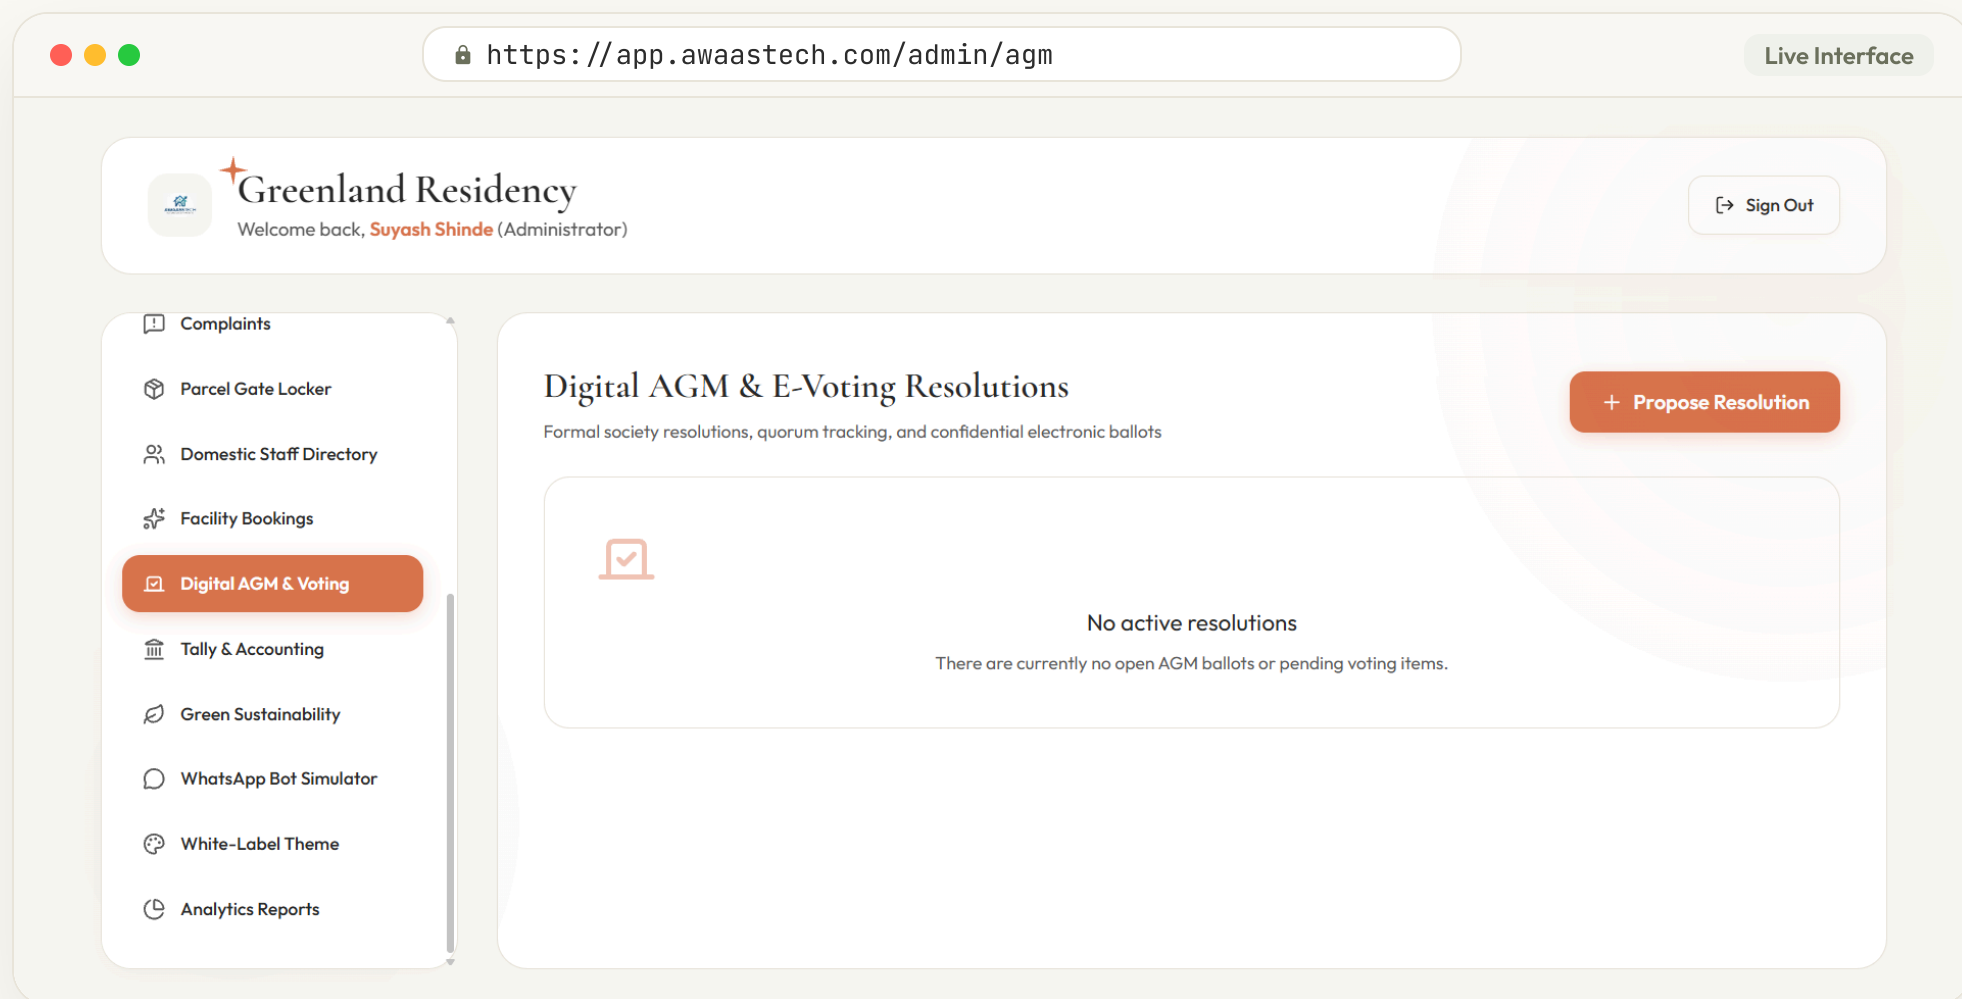

Clubhouse, swimming pool, and sports court reservations powered by atomic locks to eliminate double-booking clashes.

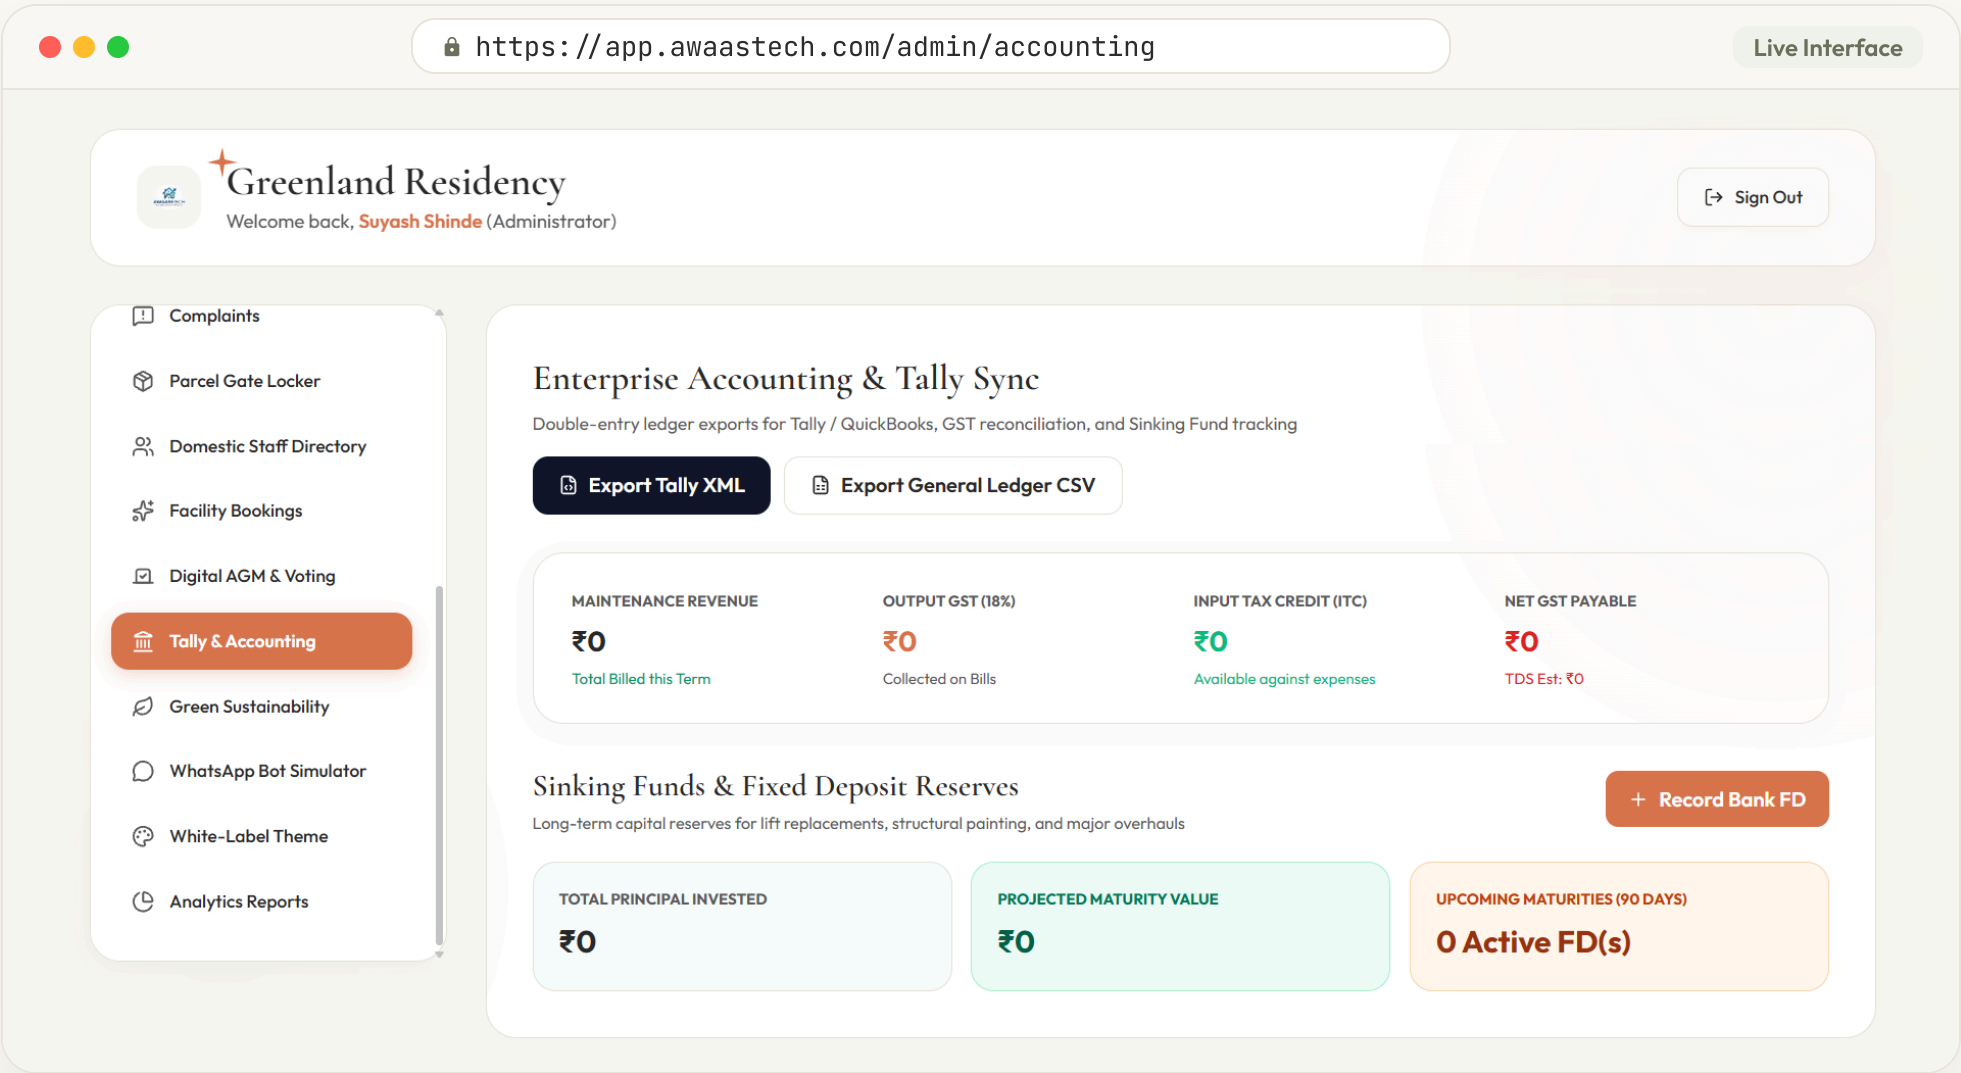

Digital AGM & Voting: I-Flat-I-Vote Ballots

Tamper-evident community ballots, candidate elections, and real-time verifiable poll counts for transparent governance.

Tally & Accounting: Double-Entry Ledger ERP

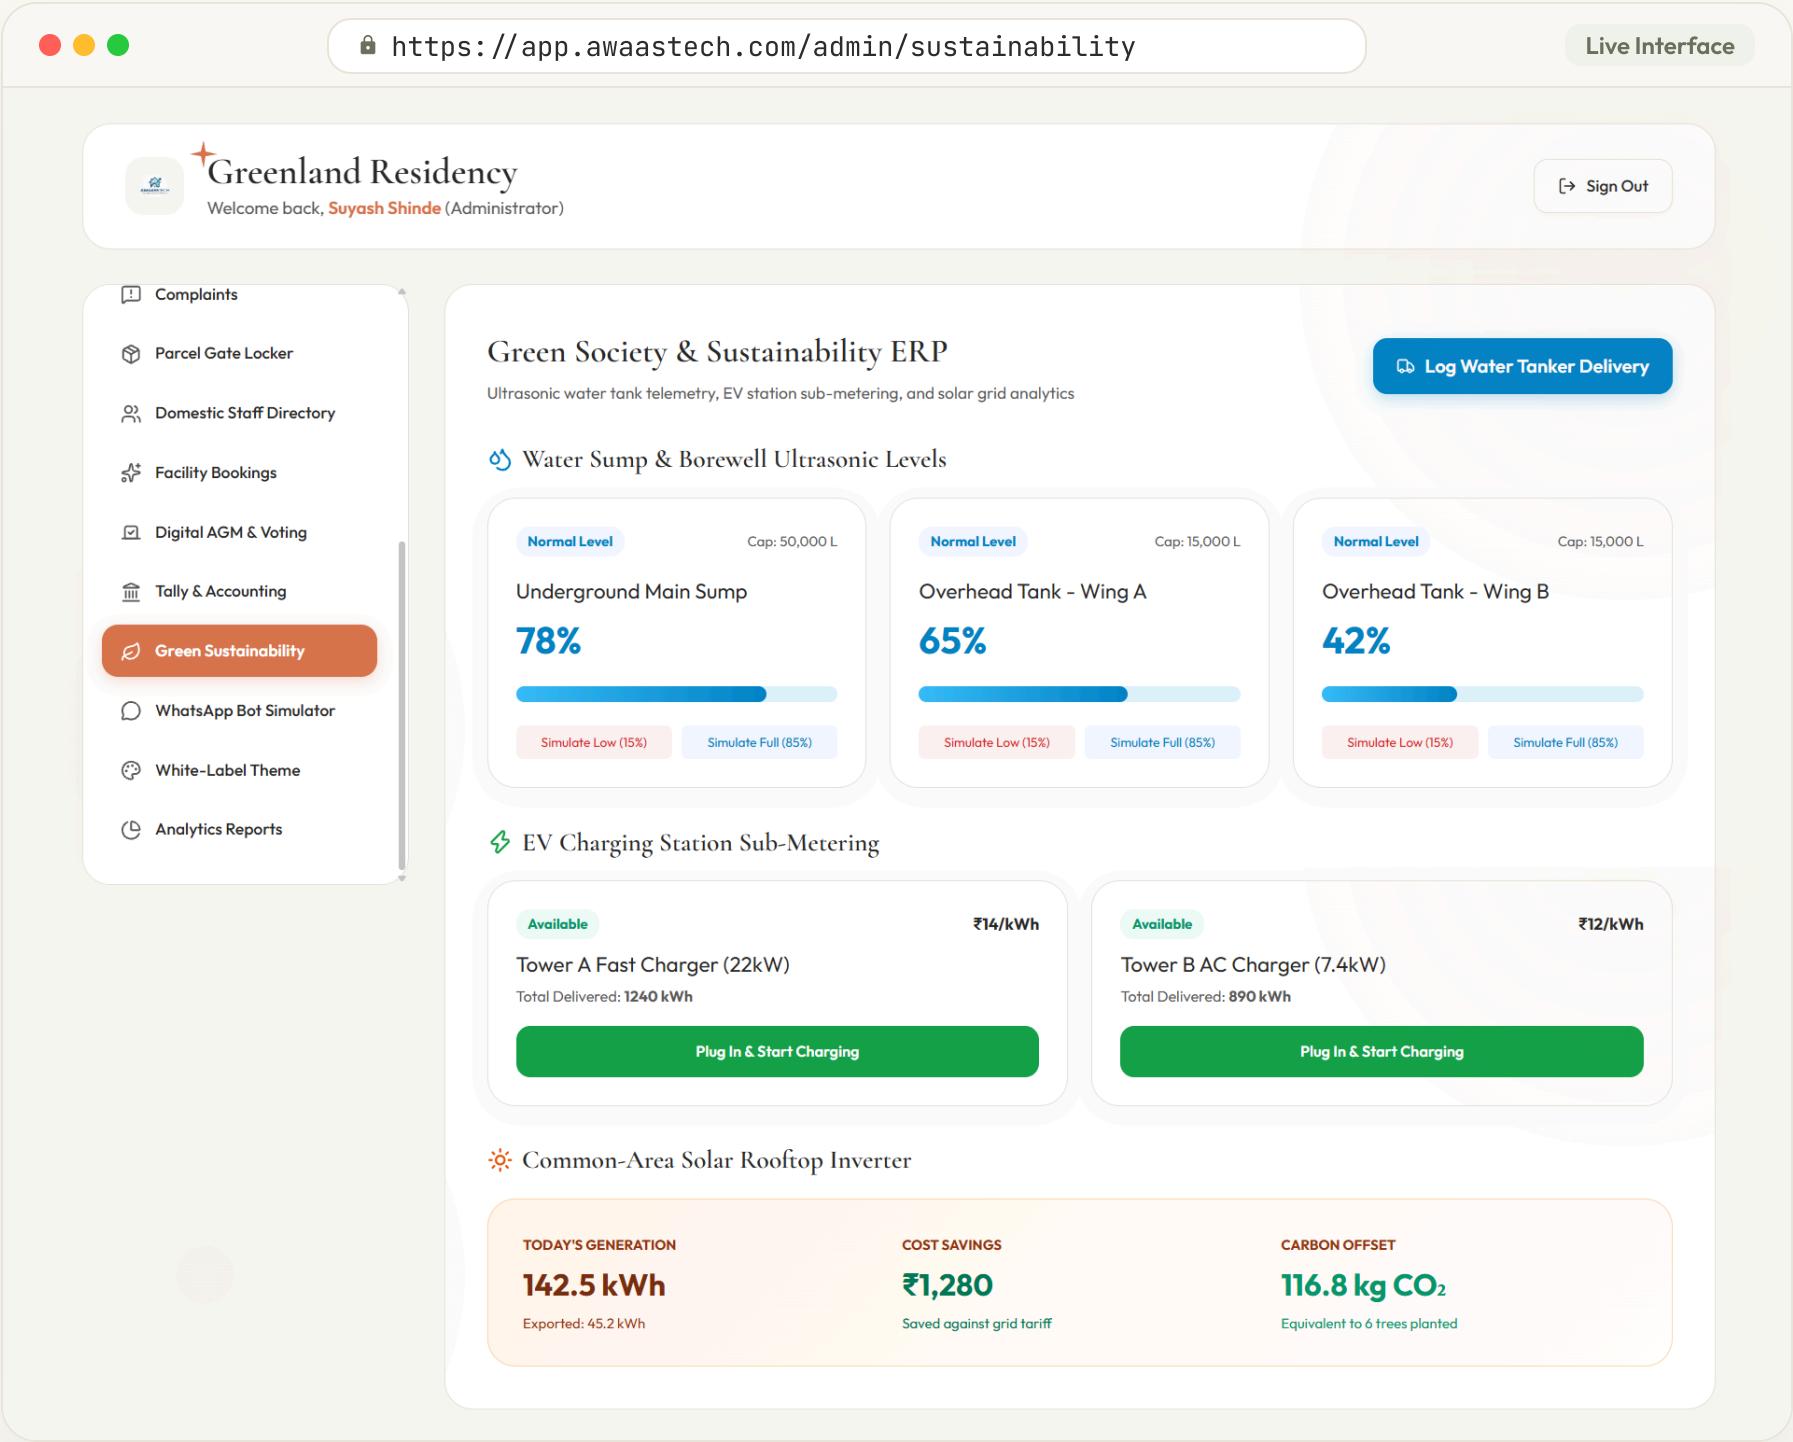

Auditor-grade double-entry ledger, journal entries, cashbooks, and 1-click XML/Excel exports for Tally integration.

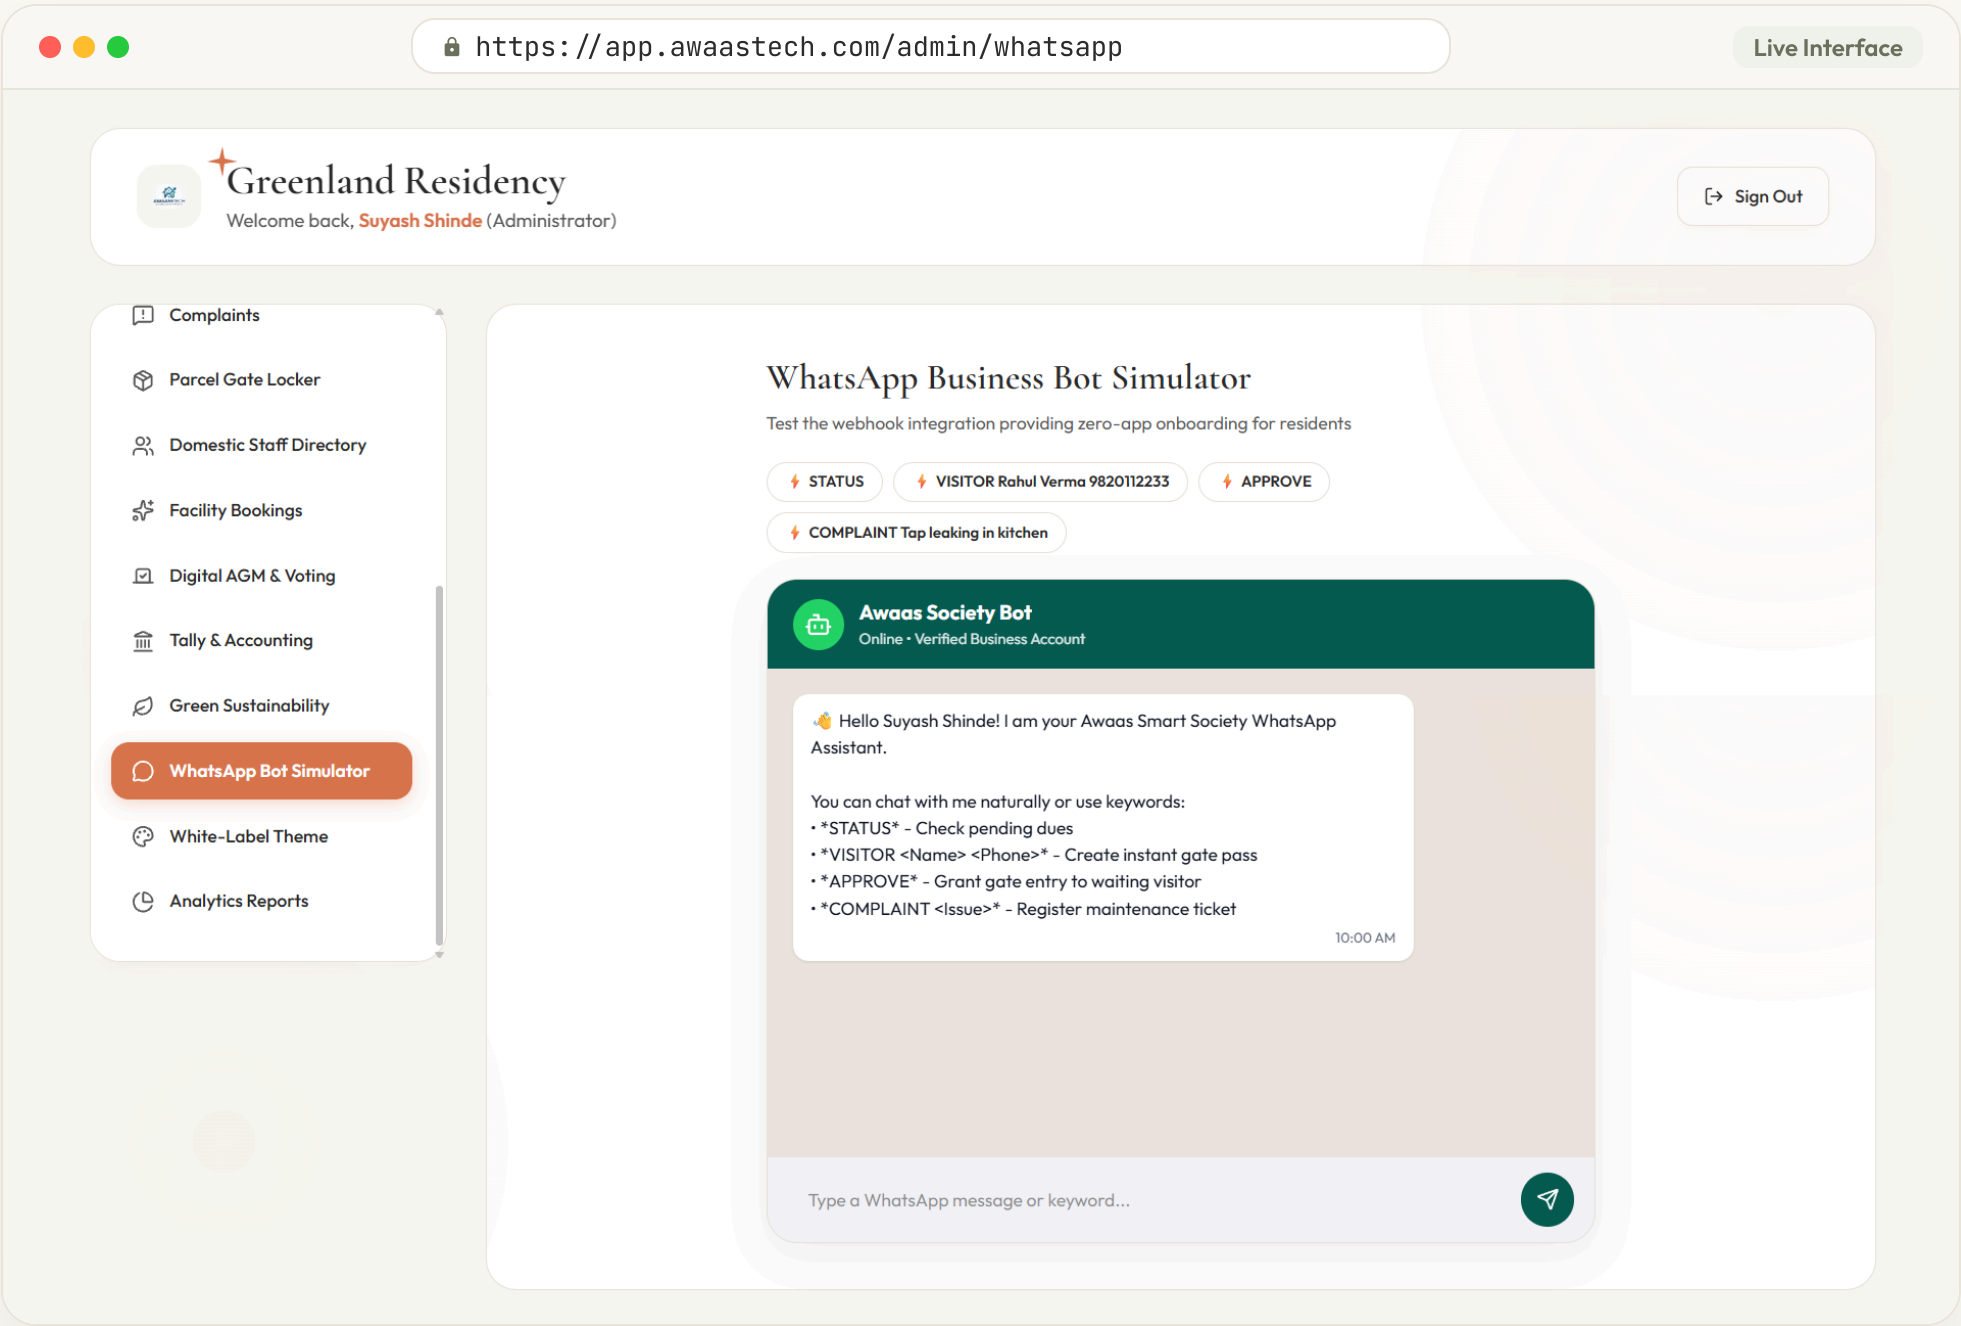

Green Sustainability: Solar, Water & ESG

Live solar panel telemetry, rainwater harvesting levels, waste segregation tracking, and community carbon scorecards.

WhatsApp Bot: AI Resident Concierge

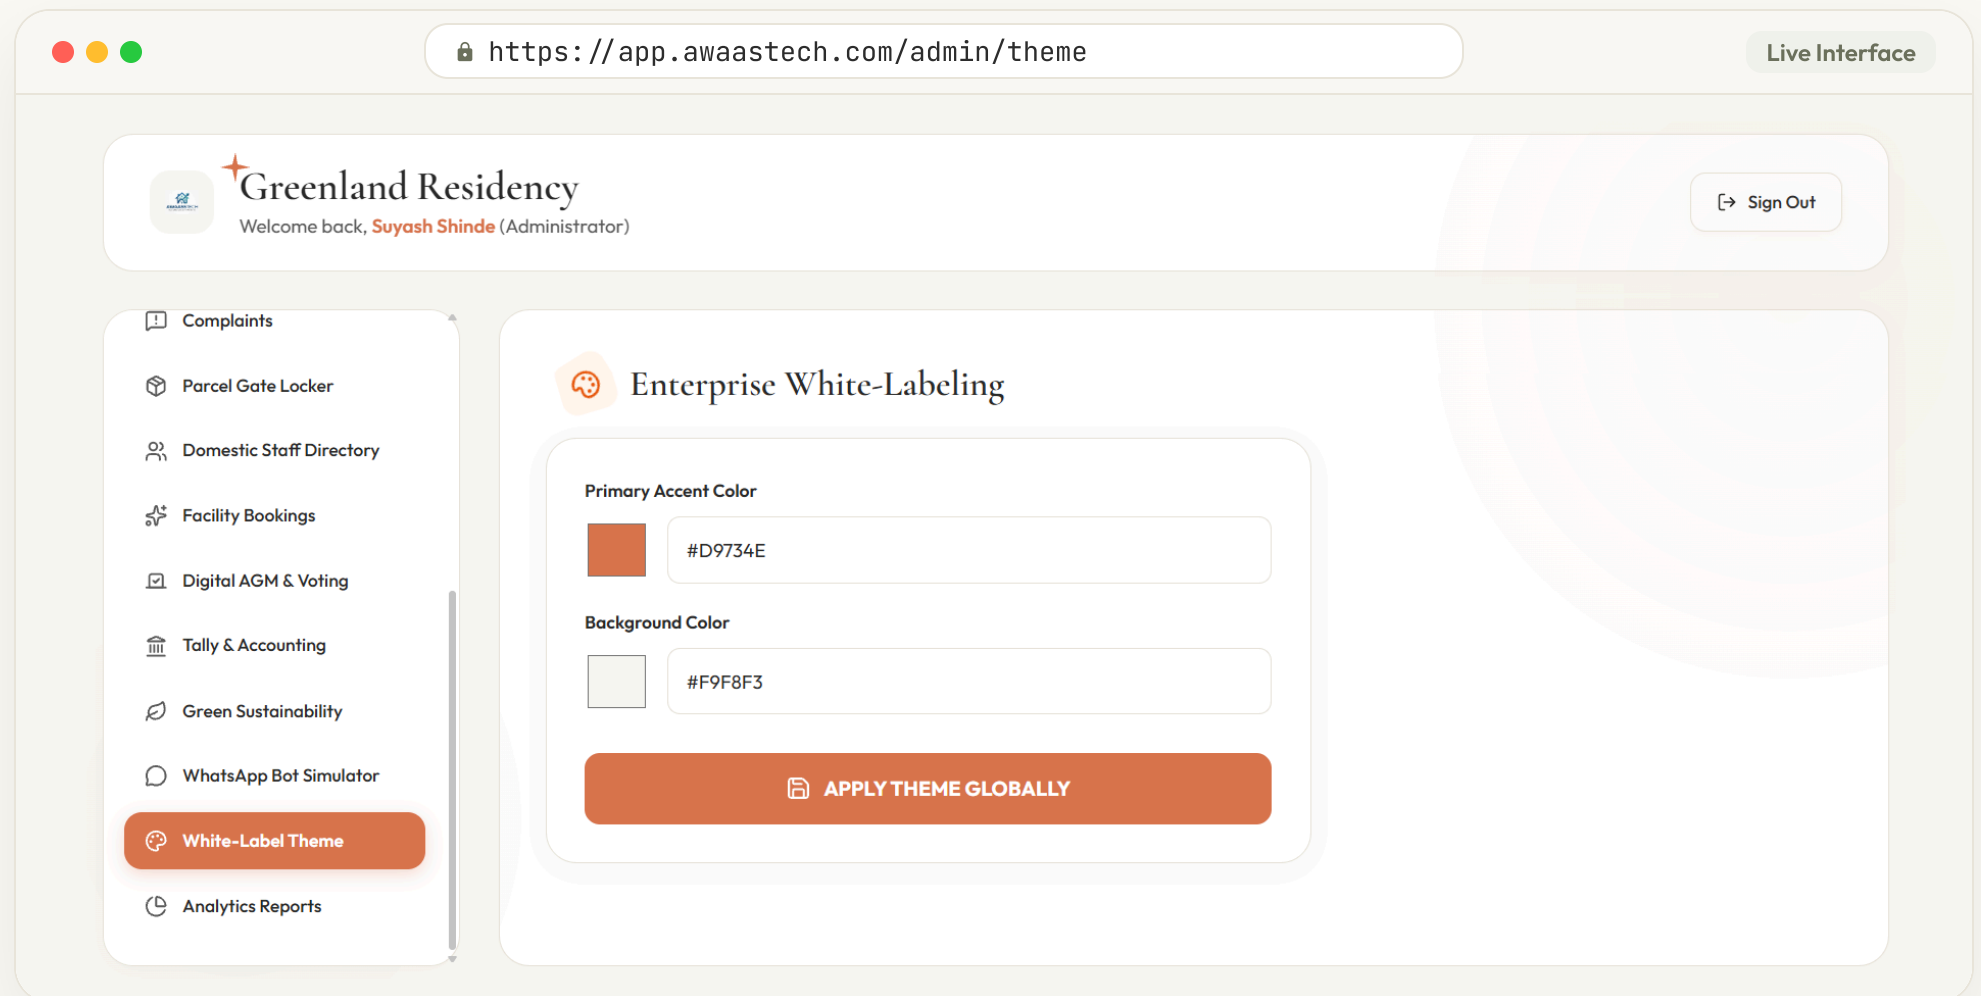

Allow residents to query dues, approve delivery drivers, and report issues directly inside WhatsApp without downloading an app.

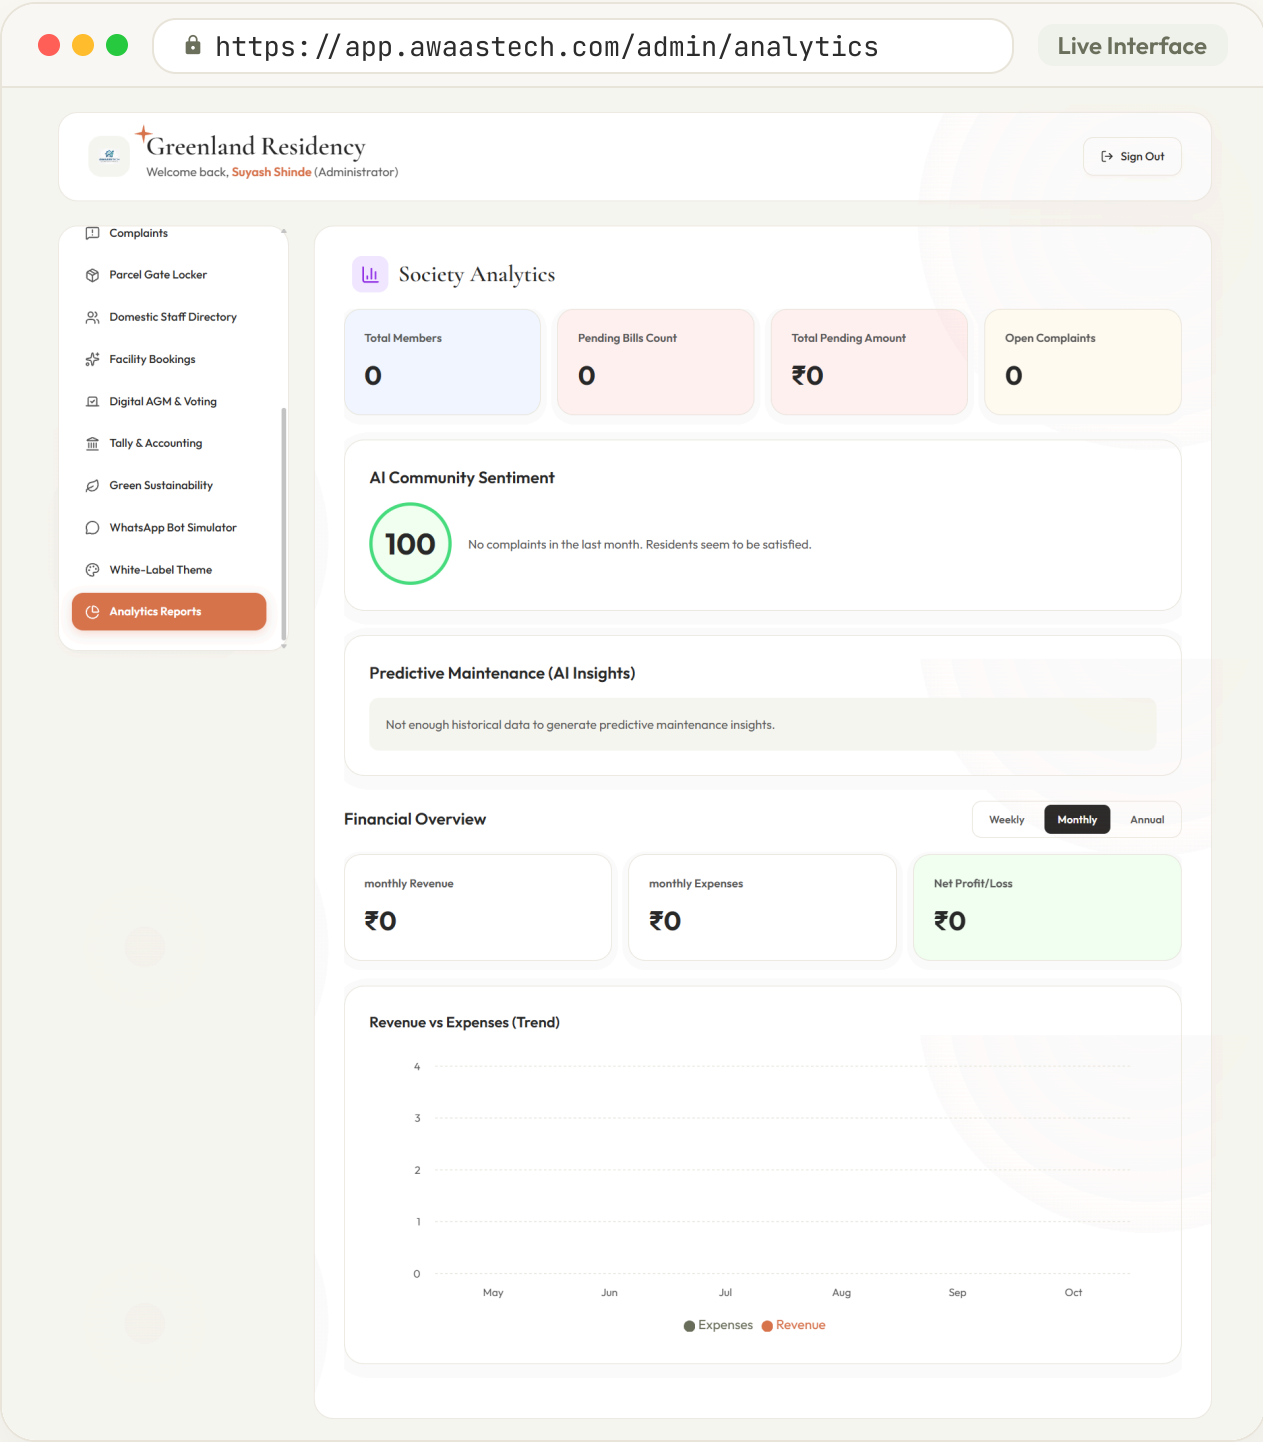

White-Label Theme: Custom Society Branding

Multi-tenant branding engine allowing housing societies to configure bespoke color palettes, dark modes, and community logos.

Analytics Reports: Financial & Operational Telemetry

Comprehensive analytics tracking collection velocity, occupancy ratios, expense breakdowns, and predictive cash flow.

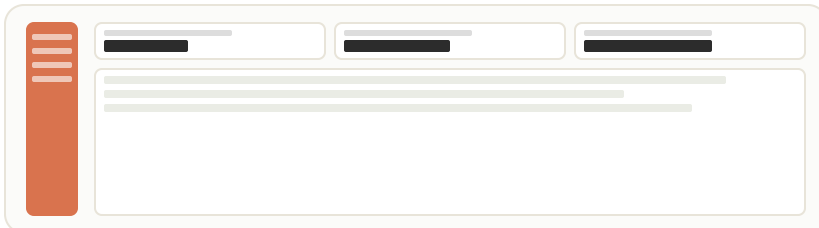

Coming Next: The Dashboards

Part 2: A live tour inside all 4 dedicated role interfaces — spotlighting the Resident & Member Portal.

1. Admin Dashboard

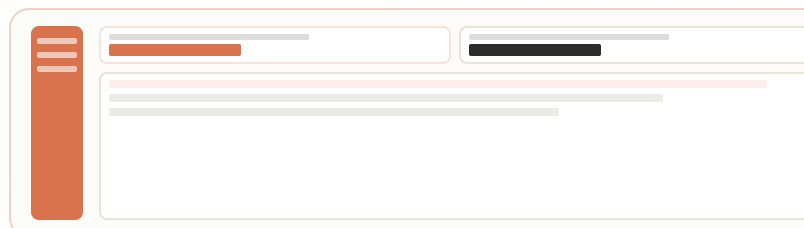

Operations ERP

Complete financial telemetry, member wing registries, dues accounting, and staff attendance.

2. Resident & Member Portal

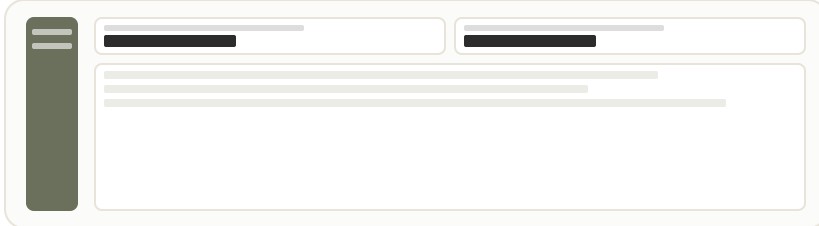

★ Resident App

Member Experience: 1-click UPI bills, instant guest gate passes, clubhouse bookings, and AGM voting.

3. Gatekeeper App

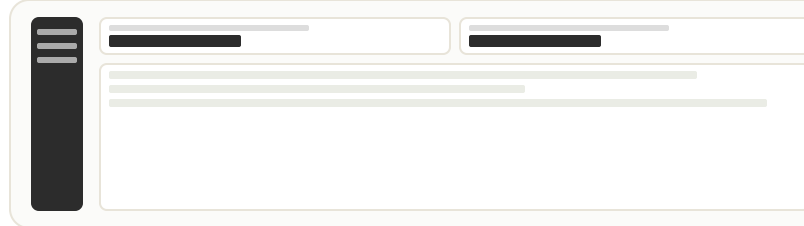

Security Guard

Fast number-plate scanning, courier parcel locker OTP handoffs, and domestic staff pass check-ins.

4. SuperAdmin Center

Multi-Tenant

Multi-society provisioning, enterprise white-label branding, global telemetry, and billing locks.

🔑 Part 2 Teaser

👉 Follow & stay tuned for Part 2! 👈

Production Ready & Open Source ★

Built for Modern Communities. *Production-Grade Engineering.*

From automated maintenance billing to AI dispute reconciliation and ALPR security — Awaastech redefines society management.

Idempotent Billing & Webhooks

Redis Lua distributed locks eliminate double-charges across concurrent servers.

LangGraph Dispute Agents

Autonomous LLM triaging resolves billing disputes and categorizes maintenance tickets.

GPS Geofenced Escrow

turf.js polygon boundaries enforce contractor presence before vendor milestone funds release.

Bank-Grade RBAC & httpOnly

Strict role isolation across 35+ endpoints with stateless Redis token blacklisting.
